KADOR

PRODUCTION AND SALES OF KADOR

For more than 25 years, Coatex is a market leader in both the production and sales of kador. All over the world, our kadors connect fabric with the profiles of our customers. Throughout the years, we've established an excellent reputation with the high quality of our product and the service we provide.

In our flexible production process, we use 3 methods to weld the fabric around the core, depending on the type of kador: hot wedge, hot air and high frequency.

APPLICATIONS

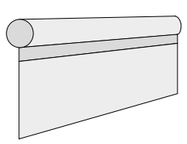

Kadors are used in many different sectors such as: camping, tensile architecture, screens, sails, rolling doors,...

As a market leader, Coatex offers a wide range of standard kadors. Moreover, we are specialized in made-to-measure kadors. Are you looking for a specific kador? Ask us. If we haven't made it before, we can develop it for you.

OUR MOST IMPORTANT TYPES OF STANDARD KADORS ARE:

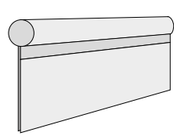

SINGLE KADOR

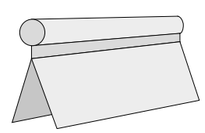

DOUBLE CLOSED KADOR

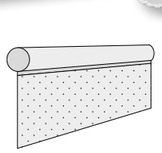

DOUBLE OPEN KADOR

PRINT KADOR

REPAIR KADOR

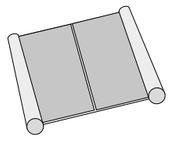

FLAT KADOR

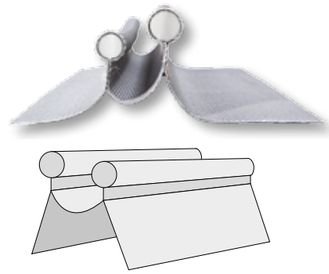

SPECIFICALLY DESIGNED KADORS ARE AVAILABLE.

We offer different types of packaging : loose on a pallet, in a cardboard box (1 or more) or on reels.

COATEX

COATEX, SUBSIDIARY OF SIOEN INDUSTRIES

Coatex is a subsidiary of Sioen Industries and is specialized in finishing technical textiles. In our range of products, we also offer anti-vandalism tarps, inflating dunnage bags, air tubes, pond liner,...

We also offer services such as cutting with our laser and CNC cutter for irregular shapes and linear cutting for straps.
